NOTARY PUBLIC
SUMMARY & JUSTIFICATION FOR VARIANCES  MAR 7 2017

Directions: Complete responses must be provided for ALL questions. Incomplete applications will not be accepted. The space below may be utilized or responses may be submitted as a separate attachment. Specific criteria for Board approval of variances may be found on page 7. The justification must address these criteria. Please submit a typewritten or legible justification.

State whether the property described in this application is subject to a pending application or ordinance for a Rezoning or Special Use Permit. YES X NO. (If yes, the variance/special exception request will be rescheduled to a hearing following the final approval by City Council & the Mayor.)

Summary of proposed construction changes to buildings or site (shall not replace submittal of written criteria). (Examples: “Convert a 100’ x 200’ retail space into a restaurant.” “Install a 6-foot high opaque wooden wall (‘privacy fence’ with 6-foot high opaque wall gates.”).

Please see attachment

Proposed Lot Coverage (After Construction): Calculate total amount of lot coverage on entire property, after completion of proposed construction, including existing and proposed buildings and other structures; sidewalks, driveways, parking pads, patios, gravel, etc.; everything except natural planted or undisturbed areas.

\[ \text{covered square feet} / \text{total lot square feet} = \text{\% proposed lot coverage} \]

\[ \text{1234} \text{ covered square feet} / \text{10,000 total lot square feet} = \text{49.5\% proposed lot coverage} \]

\[ \text{100\% maximum allowed lot coverage} \]

Variance Criteria (see page 6 for detailed criteria):

1) What are the extraordinary and exceptional conditions pertaining to the particular piece of property in question (size, shape or topography)? Please see attached

2) How would the application of the Zoning Ordinance of the City of Atlanta to this particular piece of property create an unnecessary hardship? Please see attached

3) What conditions are peculiar to this particular piece of property? Please see attached

4) Submit facts to show that relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the Zoning Ordinance of the City of Atlanta. Please see attached

August 2016 - Page 5 of 12
Summary and Justification for Variances

Streelman House/1291 Lanier Boulevard NE, Atlanta, GA 30306

Summary of proposed construction changes to buildings or site

The construction changes include the addition of a master suite and screened porch extending from the back elevation of the house. The new floor area will be 550 square feet.

1) The extraordinary and exceptional conditions pertaining to the particular piece of property in question is related to the existing historic building and its close proximity to the side setback at 1287 Lanier Boulevard, which necessitates the requested variance.

2) The application of the Zoning Ordinance of the City of Atlanta to this particular piece of property would create a hardship because the construction of the new addition would not be possible due to current side setback requirements. The existing historic home at 1291 Lanier Boulevard was originally constructed so it was closely sited to the property located at 1287 Lanier Boulevard, and this is a non-conforming use. The property owner and architect have developed the current one-story plan to maintain the historic streetscape appearance and overall scale/massing; this is a deliberate design choice that was made in order to be sensitive and compatible with the existing built environment, the immediate neighbors, and the overall neighborhood.

3) The condition that is peculiar to this particular piece of property includes the existing side setback distance between the historic house at 1291 Lanier Boulevard and the neighboring property at 1287 Lanier Boulevard.

4) The following information coupled with the provided plans illustrate that the project once granted a variance will not be substantially detrimental to the public good or impair the purposes and intent of the Zoning Ordinance of the City of Atlanta:

The overall project remains under the required maximum lot coverage, and existing impervious materials, such as the current driveway and deck, will be removed in order to offset the percentage of impervious materials lot coverage.

The side elevation of the new addition closest to 1287 Lanier Boulevard will maintain the current line of the existing residence. The new addition will not extend the residence closer to 1287 Lanier Boulevard. The addition will improve the viewshed between 1291 Lanier Boulevard and 1287 Lanier Boulevard.

The addition has been sensitively designed to be one-story in height, and to maintain scale/massing that is compatible and appropriate for the existing houses surrounding 1291 Lanier Boulevard, as well as the overall neighborhood. The appearance from the street will be maintained.

Exterior appearance and detailing will be in keeping with the existing residence and will also acknowledge the overall historic appearance and sense of place for Morningside and Lanier Boulevard in particular.
