SUMMARY & JUSTIFICATION FOR VARIANCES

Directions: Complete responses must be provided for ALL questions. Incomplete applications will not be accepted. The space below may be utilized or responses may be submitted as a separate attachment. Specific criteria for Board approval of variances may be found on page 7. The justification must address these criteria. Please submit a typewritten or legible justification.

State whether the property described in this application is subject to a pending application or ordinance for a Rezoning or Special Use Permit. YES NO. (If yes, the variance/special exception request will be rescheduled to a hearing following the final approval by City Council & the Mayor). Please provide the relevant zoning number associated with the subject property: _____.

Is the proposal subject to Inclusionary Zoning? YES NO

Summary of proposed construction changes to buildings or site (shall not replace submittal of written criteria). (Examples: "Convert a 100' x 200' retail space into a restaurant." "Install a 6-foot high opaque wooden wall ('privacy fence' with 6-foot high opaque wall gates).")

ADDITION 2 CAR GARAGE

Proposed Lot Coverage (After Construction): Calculate total amount of lot coverage on entire property, after completion of proposed construction, including existing and proposed buildings and other structures; sidewalks, driveways, parking pads, patios, gravel, etc.; everything except natural planted or undisturbed areas.

5257
~~4200~~

covered square feet / 12029 total lot square feet = 43 % proposed lot coverage

Variance Criteria (see page 6 for detailed criteria):

55 Trinity Ave. S.W.
Site 1850

1) What are the extraordinary and exceptional conditions pertaining to the particular piece of property in question (size, shape or topography)? SEE WRITTEN JUSTIFICATION

2) How would the application of the Zoning Ordinance of the City of Atlanta to this particular piece of property create an unnecessary hardship? SEE WRITTEN JUSTIFICATION

3) What conditions are peculiar to this particular piece of property? SEE WRITTEN JUSTIFICATION

4) Submit facts to show that relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the Zoning Ordinance of the City of Atlanta. SEE WRITTEN JUSTIFICATION

Variance Request

This variance application serves as a request for a reduction to the West side yard setback to construct a new attached garage/screen porch. We would like to reduce the required 7'-0" side setback to 2'-6" (see architectural site plan).

Extraordinary/Exceptional (Hardship) Property Conditions

We have three hardship conditions and they are as follows:

1. Due to the rear yard natural topography, the current location of the garage blocks the driveway flow of storm water run-off. This location captures large amounts of storm water run-off and this interruption of flow has been known to cause water to divert off onto neighboring yard(s). Along with this collection of flooding water, we are left with a mud debris build-up, regular cleaning, and at times repairs to prevent measures of mold growth.
2. Due to the home's current footprint which already rest's several feet over the West Side setback, we are asking for a reduction for the new garage footprint so that the home follows along the same path towards the rear yard. This would allow for the proper turning radii for most standard vehicles to enter and exit the new garage location.
3. Due to the current rise in vehicle break-ins and theft within the existing and surrounding neighborhoods, we feel the new garage location would help eliminate any visual street exposure and will now tie into the existing home security system. It is also my understanding that a zoning regulation recently has been or will soon take affect for no new garage facing structures (facing the road). Our new garage location will be within these new zoning regulations.

Uniqueness of Property Compared to Surrounding Properties

Our surrounding homes seem to be well suited within the existing zoning regulations and have a more uniform topography. Our current unique conditions (follow along a few line items mentioned above) due not follow our surrounding properties as follows:

1. Our home already rests well over the West Side yard setback (see site plan). If we were to construct the garage within the side setback as shown on the new plans then the turning radii for entering and exiting the garage would not function well. If we follow along the same west side footprint (of the existing home) for the new addition we would have the proper turning radii needed for most standard vehicles. If asked to relocate the garage to any other location than what our architect has suggested then we would be still dealing with the same current conditions we are

- attempting to resolve.
2. Our rear yard topography is unique to surrounding properties in that falls off sharply near the rear of the home. This dropoff causes the current existing garage location and surrounding conditions to develop excessive flooding, mud build-up, storm water run-off to neighboring properties, and mold growth to occur.

No Cause of Impairment to Surrounding Properties

As outlined in the architectural site plan, and in looking at placement of structures on surrounding properties, the creation of the attached garage will not detract from the use/enjoyment of such properties. In fact, we believe the surrounding properties will benefit from the project. As designed, the new garage location will allow us to create a safe and secure garage undetected from street view along with allowing storm water runoff to be undistrubed as it flows off to the rear vegetated yard and not on neighboring properties. All things considered, the project will transform our property into one of desirability for years to come. And while this is our "forever house", should there ever be a need to sell in the future, the project will significantly enhance the market addition, which will benefit the neighborhood as a whole.
