SUMMARY & JUSTIFICATION FOR VARIANCES

Directions: Complete responses must be provided for ALL questions. Incomplete applications will not be accepted. The space below may be utilized or responses may be submitted as a separate attachment. Specific criteria for Board approval of variances may be found on page 7. The justification must address these criteria. Please submit a typewritten or legible justification.

State whether the property described in this application is subject to a pending application or ordinance for a Rezoning or Special Use Permit. YES NO. (If yes, the variance/special exception request will be rescheduled to a hearing following the final approval by City Council & the Mayor). Please provide the relevant zoning number associated with the subject property: _____.

Is the proposal subject to Inclusionary Zoning? YES NO

Summary of proposed construction changes to buildings or site (shall not replace submittal of written criteria). (Examples: "Convert a 100' x 200' retail space into a restaurant." "Install a 6-foot high opaque wooden wall ('privacy fence' with 6-foot high opaque wall gates.").

Conversion of existing 233 sq. ft. patio on side of 1935 house to be an enclosed space on same foundation area

Proposed Lot Coverage (After Construction): Calculate total amount of lot coverage on entire property, after completion of proposed construction, including existing and proposed buildings and other structures; sidewalks, driveways, parking pads, patios, gravel, etc.; everything except natural planted or undisturbed areas.

3,705 covered square feet / 12,578 total lot square feet = 29 % proposed lot coverage

50 % maximum allowed lot coverage

Variance Criteria (see page 6 for detailed criteria):

- 1) What are the extraordinary and exceptional conditions pertaining to the particular piece of property in question (size, shape or topography)? See Justification Letter
- 2) How would the application of the Zoning Ordinance of the City of Atlanta to this particular piece of property create an unnecessary hardship? See Justification Letter
- 3) What conditions are peculiar to this particular piece of property? See Justification Letter
- 4) Submit facts to show that relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the Zoning Ordinance of the City of Atlanta. See Justification Letter

Ste. 3390
Atlanta, GA

Dear Members of the Board of Zoning Adjustment,

The patio on the side of our home has screens that are no longer attached, faded wood paint, and entry doors that are broken. This was the condition when we purchased the home, so we are in the process of designing a renovation to our home to be aligned with the style and physical upkeep of homes throughout the neighborhood.

On the attached survey, above the garage, there is already a screened patio. Given such, our hope is to convert this rundown patio into an enclosed space. As we are expecting another child, the converted space would be used for an office to allow me to work from home. We are unable to add an office on the back of our home as there would be no opportunity for interior entrance. As our family expands, we would like this conversion of existing patio area to accommodate our growing family and make this house one that serves as a home for a working family.

The existing screened and open patio already sits on the side set-back from when the house was originally built in 1935. We are not looking to encroach further on the set-back. Above the existing screened patio is already our older son's bedroom, so there is existing heated space above our proposed enclosure. Our hope is this is an opportunity to meet the aesthetic standards that one would expect in Morningside, by converting the rundown patio into an enclosed office space.

Extraordinary and Exceptional Property Conditions

Our property is zoned for R-4 and meets the minimum lot size requirement. However, the house drops 5' from west to east and sits 51' back on the property. Adding an office to the back of the house would make the rear yard unusually small. There are also patio doors and a patio along the entire rear of the house, so there would be no method for interior entry into the enclosed space. The house itself was renovated in 1999 and the second floor is built into the attic, so there is no unused attic space for expansion.

Application of Zoning Ordinance Creating Unnecessary Hardship

We have given a lot of thought on how to both beautify the patio and make our home family-friendly. To ensure that we kept with the character of our home, we decided against making the open part of the patio a 2-story renovation. We want to focus on maintaining the integrity of the home by enclosing the patio on the existing foundation area only, which will still retain an over 4' distance from the side, and provide the perfect function for a working mom in the shape of an office.

The application of zoning ordinance would create unnecessary hardship as it would:

- Retain a worn patio that does not align with the aesthetic and physical upkeep within the neighborhood
- Prevent us from accommodating both our family changes and employment

I want to encourage and raise my children that women can work and be moms. The intent of the zoning ordinance is not to discourage families from remaining in their homes as life changes. This would greatly diminish the quality of life our soon-to-be family of four could have in this home.

Conditions Peculiar to Particular Property

The large front yard set-back, fused with the existing rundown nature of the patio on the side set-back, is peculiar to our property.

Cell Phone: 678-267-4535 or 770-547-5221
Email: Marianna.Love@gmail.com or malove@gmail.com

Variance Would Not Cause Detriment to Public Good or Impair Purpose / Intent of Zoning Ordinance
Relief, if granted, will not cause substantial detriment to the public good nor impair the purposes and intent of the zoning ordinance of the City of Atlanta.

Relief, if granted, will not detract from the neighbor's use and enjoyment of the adjoining property as there is already an existing structure on that foundation. The set-back will not encroach any more than it is currently, and it is currently over 4' allowing for maintenance without stepping on the adjoining property and remaining in accordance with fire code.

The proposed design is actually to increase the aesthetic of our home and, inherently, create a better experience for our neighbors. We believe our proposed improvement is in keeping with the orderly evolution of this neighborhood and will promote a desirable living condition for our family and the neighborhood.

In advance of this filing, we met with and provided all of our neighboring properties with the survey as well as conversion drawings. Each and every one was supportive of our conversion to meet our growing family, and appreciative of renovating the worn looking patio. We have signed letters of acknowledgement from each.

Thank you for your consideration in this request.

Sincerely,

Marianna Love
