Name of Applicant

BUILDING PERMIT AUTHORIZING
Proposed Accessory Structure

at 1650 Homestead Avenue NE 18th/56
Street Address Quadrant District & Land Lot

to be used for Single family residential Purposes

The property is zoned R-4 District

2. The Building Permit Was Denied For The Following Reasons:

Applicant seeks a variance from the zoning regulation: (1) to reduce the required north side yard setback from 7 feet to 3 feet; (2) to reduce the required rear yard setback from 15 feet to 3 feet; (3) to increase the maximum allowed square footage of an accessory structure from 30 percent to 38 percent of the main dwelling for the construction of an accessory structure.

A complete plan review was not conducted

Applicant seeks no other variances at this time.

1982 ZONING ORDINANCE, AS AMENDED

Chapter 6 Section 16-06.008 Paragraph (2)(3)

Chapter 28 Section 16-28.004 Paragraph (3)

SUMMARY & JUSTIFICATION FOR VARIANCES

Directions: Complete responses must be provided for ALL questions. Incomplete applications will not be accepted. The space below may be utilized or responses may be submitted as a separate attachment. Specific criteria for Board approval of variances may be found on page 7. The justification must address these criteria. Please submit a typewritten or legible justification.

State whether the property described in this application is subject to a pending application or ordinance for a Rezoning or Special Use Permit. ___YES ___NO. (If yes, the variance/special exception request will be rescheduled to a hearing following the final approval by City Council & the Mayor). Please provide the relevant zoning number associated with the subject property: ______________.

Is the proposal subject to Inclusionary Zoning? ___YES ___NO

Summary of proposed construction changes to buildings or site (shall not replace submittal of written criteria). (Examples: “Convert a 100’ x 200’ retail space into a restaurant.” “Install a 6-foot high opaque wooden wall (‘privacy fence’ with 6-foot high opaque wall gates.”).

Remove an exist 504 sq ft two car garage, built within inches of the property side line & replace with a new 22x22 garage with guest unit above. An exterior stair to the upstairs will be built. Total garage area with appurtenanc es = 1198 sq ft.

Proposed Lot Coverage (After Construction): Calculate total amount of lot coverage on entire property, after completion of proposed construction, including existing and proposed buildings and other structures; sidewalks, driveways, parking pads, patios, gravel, etc.; everything except natural planted or undisturbed areas.

4,054 covered square ft / 11,154 total lot square feet = 43.5 % proposed lot coverage

60 % maximum allowed lot coverage

Variance Criteria (see page 6 for detailed criteria): SEE ATTACHED.

1) What are the extraordinary and exceptional conditions pertaining to the particular piece of property in question (size, shape or topography)?

__________________________________________________________________________

2) How would the application of the Zoning Ordinance of the City of Atlanta to this particular piece of property create an unnecessary hardship?

__________________________________________________________________________

3) What conditions are peculiar to this particular piece of property?

__________________________________________________________________________

4) Submit facts to show that relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the Zoning Ordinance of the City of Atlanta.

__________________________________________________________________________
Variance Criteria
1850 Homestead Avenue
Atlanta, Georgia 30306

1) The property meets the minimum requirements for R4 and is rectangular in shape.
2) **Setback hardship:** The existing garage is located within inches of the north property line. The proposed garage would sit 3' from the property line. Accessing it from the existing driveway would be too tight if located at the 7' setback. To allow enough clearance to enter the garage, the proposed garage would be located 3' from the rear property line. **Maximum Square Footage Hardship:** The existing home is a relatively modest 3147 SF of heated area, which only allows an accessory building of 944 SF. When a conventionally designed garage of 22'x22' is deducted from the allowable, the remaining area is inadequate to achieve the space planning goals desired for a functioning guest house.

3) The location of the existing house, garage and drive dictate the location for a garage. Locating it within the buildable area of the lot would require additional paving and excavation that would exceed lot coverage and eliminate any usable backyard space.

4) Relief would not be detrimental to the public good nor impair the intent of the zoning ordinance. The new garage would actually increase fire safety by locating the accessory building further from the property line than the existing garage and rating the walls for one hour fire resistance. The new garage would not impair light and air quality for themselves or adjacent neighbors. Drain flow would be the same as the existing. The new accessory building would be consistent with other properties in the neighborhood, adding value to the property and helping to sustain neighborhood stability.
