SUMMARY & JUSTIFICATION FOR VARIANCES

Directions: Complete responses must be provided for ALL questions. Incomplete applications will not be accepted. The space below may be utilized or responses may be submitted as a separate attachment. Specific criteria for Board approval of variances may be found on page 7. The justification must address the criteria. Please submit a typewritten or legible justification.

Is the property described in this application subject to a pending application or ordinance for a Rezoning or Special Use Permit? _____YES  X NO. (If yes, the variance/special exception request will be rescheduled to a hearing following the final approval by City Council & the Mayor). Please provide the relevant zoning application number associated with the subject property: ___________________.

Summary of proposed construction changes to buildings or site (shall not replace submittal of written criteria). (Examples: “Convert a 100’ x 200’ retail space into a restaurant.” “Install a 6-foot high opaque wooden wall (‘privacy fence’ with 6-foot high opaque wall gates.”).

Add new front porch, replace deck w/ screened porch, add studio to existing garage, add pool.

Proposed Lot Coverage (After Construction): Calculate total amount of lot coverage on entire property, after completion of proposed construction, including existing and proposed buildings and other structures; sidewalks, driveways, parking pads, patios, gravel, etc.; everything except natural planted or undisturbed areas.

5767 covered square feet / 11539 total lot square feet = 49.97% proposed lot coverage

50% % maximum allowed lot coverage

Variance Criteria (see page 6 for detailed criteria):

1) What are the extraordinary and exceptional conditions pertaining to the particular piece of property in question (size, shape or topography)?  see letter

2) How would the application of the Zoning Ordinance of the City of Atlanta to this particular piece of property create an unnecessary hardship?  see letter

3) What conditions are peculiar to this particular piece of property?  see letter

4) Submit facts to show that relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the Zoning Ordinance of the City of Atlanta.

re: Renovation and Addition to the White Stewart Residence
1480 Lanier Place, NE 30306

Dear Ms. Holmes,

The project is located at 1480 Lanier Place in the Morningside area. The scope of work is as follows:

- Add a new front porch and replace the rear deck with a new screened porch
- Add a studio to the existing garage
- Add a pool in the back yard

The house is a one and a half story bungalow built in the 1920's, zoned R-4 on .265 acres or 11,539 SF. The existing lot coverage is 35.66% and the proposed lot coverage will be 49.99%.

Several smaller trees will be removed and be recompensated and the critical root plate of a large mature tree to the west of the new structures will not be impacted.

The proposed 854 SF studio & garage is 29.54% of the existing 2891 SF main house which is under the 30% allowed.

The house and the proposed studio & garage is a total of 3745 SF for an FAR of 32.46% (3745 SF/11539 SF) which is under the 50% allowed FAR.

We respectfully request:

- Reduce the front yard from 35 feet to 28.7 feet
- Reduce the north side yard from 7 feet to 4.0 feet
- Reduce the south side yard from 7 feet to 3.0 feet

We are requesting three setback variances: the requested 28.7 feet for the front yard for a new 10' deep front porch (the existing house is 28.7' from the property line); the requested 4.0 feet for a new screened porch and pool (the existing house is 2.5 feet from the property line); the requested 3 feet for the studio addition (the existing garage is .09' from the property line).

The two requested side yard setbacks will be less non-conforming than the existing conditions.
Extraordinary/Exceptional Conditions Pertaining to the Property because of its Size/Shape

The lot is 49.00' wide in the front and 51.20' wide in the back, which is non-conforming in width. The placement of the house on the lot complies with the current Zoning Ordinance in all respects except the existing front yard setback is 28.7', the existing north side yard setback is 2.5' and the existing garage south side yard setback is 0.09. The placement of the house and the garage on the lot was done when they were built in the 1920's.

The Application of the Zoning Ordinance to this Property would create an Unnecessary Hardship

The renovation and additions have been designed with the goal of preserving ample backyard space and maintaining the historic look of the existing house and neighborhood. The application of the setback requirements would prevent us from expanding in an efficient and pragmatic manner.

Such conditions are peculiar to the particular piece of property involved

The lot width, required setback conditions and the existing encroachment of the house on the lot make renovation and additions difficult without a variance.

Relief, if granted, would not cause substantial detriment to the public good or impair the purpose and intent of the Zoning Ordinance of Atlanta

The proposal will not distract from people's use and enjoyment of adjoining and surrounding properties. The proposed construction is in harmony with construction on neighboring lots, and allows for adequate light and air on adjacent properties. We believe the proposed construction is in keeping with the orderly evolution of this neighborhood and will promote desirable living conditions for the homeowner as well as the neighborhood.

Thank you for your consideration of our request. Please do not hesitate to contact me if you have any questions or concerns

Sincerely,

Mary F. Turnipseed, R. A

Work Description: APPLICANT SEEKS A VARIANCE FROM THE ZONING REGULATIONS TO (1) REDUCE THE REQUIRED YARD SETBACK FROM 35 FEET TO 28.7 FEET TO CONSTRUCT A FRONT PORCH. (2) REDUCE THE REQUIRED NORTH SIDE YARD SETBACK FROM 7 FEET TO 4 FEET, (3) REDUCE THE REQUIRED SOUTH SIDE YARD SETBACK FROM 7 FEET TO 3 FEET TO CONSTRUCT A NEW ACCESSORY STRUCTURE.
The field data upon which this plat is based has a closure of 1 foot in 10,000 feet, an angular error of .8 seconds per angle point and was adjusted using the Least Squares Method. This plat has been calculated for closure and found to be accurate to 1 foot in 100,000 feet. An electronic total station and a 100' chain were used to gather the information used in the preparation of this plat.

**STATE WATERS NOTE:**
No State Waters Present Within 200 Feet of Project Site.

---

**SURVEY CERTIFICATION**

This plat is a retrocement of an existing parcel or parcels of land and does not subdivide or create a new parcel or make any changes to any real property boundaries. The recording information of the documents, maps, plots or other instruments which created the parcel or parcels are stated herein. Recordation of this plat does not imply approval of any local jurisdiction, availability of permits, compliance with local regulations or requirements, or suitability for any use or purpose of the land. Furthermore, the undersigned land surveyor certifies that this plat complies with the minimum technical standards for property surveys in Georgia as set forth in the rules and regulations of the Georgia Board of Registration for Professional Engineers and Land Surveyors and as set forth in O.C.G.A. section 15-6-67.
